Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You come across as emotional and reactive. You sense things rather than think them through. You tend to mother and include everyone within your protective envelope... are more comfortable in this role.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You love to investigate, search, and explore. You are also very communicative by any means: talking, writing, broadcasting... even by car. Always going beyond conventions into whatever's new, exciting, and spicy, you are happy when caught up in the variety and complexity of life.

Sun in Gemini

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Moon Sextile Sun

You communicate with consummate skill, and it is stimulating just being with you. Your

high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunction Mercury

It is easy for you to work with those in authority -- those older and more experienced than you. You enjoy working with others and would make a good manager. An interest (and ability) in athletics, exercise (working with the physical body), the outdoors, and such, should be lifelong. Another form this could take is training or coaching others. You have a natural ability to express yourself and handle emotions and you may like to perform a bit. A career in one of the entertainment industries is a possibility.

Sun Sextile Mars

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Sextile Jupiter

You find yourself at odds with all that is mystical --- the dreamy side of life. Your ambitions are practical and down to earth, and you tend to pooh-pooh all that smacks of the imaginative or ideal. You may have a fear that others (partners, what-have-you) are out to deceive you and want to pull the wool over your eyes. Authorities, especially men, who set themselves up as peacemakers or spiritual gurus are a major pet peeve. Your emphasis on the practical and real may also let you down, resulting in further disillusionment.

Sun Opposition Neptune

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sun Trine Pluto

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Sextile Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our

parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You can be impulsively direct when relating to others, and may seem fierce or harsh. Independent to the point of loneliness, you don't mind a more Spartan environment than most. You can get by on little. You have a short fuse, and harsh exchanges are not uncommon. Others could feel hurt by this.

Moon in Aries

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

Moon Sextile Sun

You can be a real moving force in the lives of others. A natural group leader or trainer, your vitality and drive are communicated to all those you contact, especially younger people. Your enthusiasm is so strong that it can sometimes be a little too much, making others uncomfortable. You put a lot of effort into those around you, and also into your surroundings and home environment.

Moon Conjunction Mars

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

Moon Conjunction Jupiter

You have difficulty controlling your emotions, and this often results in flare-ups with others, especially family or those closest to you. This could cost you much-needed support and intimacy. Your tendency to get harsh, both with yourself and with those around you, may mean that you spend a lot of time alone. You have a tendency to spoil your own nest. Your many responsibilities and obligations may keep you away from those who would offer you much-needed support.

Moon Square Saturn

You have a built-in sense of what the public wants and can always come up with just the right image. You find it easy to work with the emotions and feelings of others, and with great imagination. Your sense of the ideal springs to life whenever other people are involved. A born arranger of atmospheres, you enjoy working with groups of people. You are also very creative when it comes to your home and surroundings.

Moon Trine Neptune

You tend to avoid getting personal when it comes to your own emotions, and would rather keep sensitive matters at arm's length. You don't mind getting into the personal business of others, producing some heavy confrontations. Those around you don't care for personal probing on your part, and they will let you know it. Your home and surroundings tend to be very

traditional.

Moon Opposition Pluto

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

Moon Conjunction Midheaven

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Yours is a lightning wit. You somehow know everything about everybody. Curious, you love finding things out -- speculating, investigating. You are clever but not known for your deep thinking, and any and all kinds of communication satisfy. You are always exploring, testing. Debates, games, and puzzles please you. Quick.

Mercury in Gemini

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

Sun Conjunction Mercury

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

Mercury Sextile Jupiter

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You

are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Trine Uranus

Your mind is full of practical ideas, especially related to your job or skills. Always coming up with new ideas to manage things better, make things work -- practical thoughts.

Mercury Sextile Midheaven

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Homeward bound! With you, the domestic scene is ideal. Marriage, children, animals, gardens -- the whole works. You like to feel secure. Sensitive too. You are dependent on others and like to be taken care of, even mothered. You love music, can be very emotional, and tend to be protective.

Venus in Cancer

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned ignorance to the contrary, you suffer regular infusions of change, which you find very disturbing. New things threaten to overpower you.

Venus Square Uranus

You are a personal charmer, as anyone who ever gets into a one-on-one with you can testify. You seem to appreciate everything and everybody, and this shows. Your sense of love and compassion is an open book for all to read.

Venus Conjunction Ascendant

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are powerfully motivated, even driven, have a hot temper, and tend to be impulsive. You are seldom very reflective when it comes to doing something, but act first and ask questions later. Your more fiery emotions are always an insult away. You have blind courage and sheer guts. Aggressive. A self-starter. Energetic.

Mars in Aries

A natural ability to use emotions in productive ways. Entertaining others is one form this might take. Hard work and all things physical (such as sports and outdoor activities) should be a snap. You are able to manage and see how to work with the energy of others.

Sun Sextile Mars

You have an unusual ability to motivate other people, especially in group work. Your enthusiasm and drive is catching, and this makes you ideal as a teacher or group leader, especially with young people. You sometimes push too hard and irritate others.

Moon Conjunction Mars

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the right time. Politics or some public career seem inevitable.

Mars Conjunction Jupiter

You waste a lot of energy sailing into the wind and clashing against authority or reality for no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

Mars Square Saturn

You have an ability to work with the imagination, reaching beyond the mundane to the potential beyond. Your enthusiasm for mystical and religious experience makes you an excellent teacher in artistic and creative matters. Your sense of the unity behind things spiritual and psychological is clear and felt by those around you. You are, no doubt, a romantic, at home in the world of dreams and images. You enjoy working in these areas.

Mars Trine Neptune

You are opposed to emotional confrontation and resist change in these areas. Getting too

personal with you, in particular where feelings are concerned, is a big mistake. You almost always take issue and are seldom polite about it. Your ambition to "rest in peace," undisturbed, suffers constant abuse from all sides, locking you in almost continual opposition with one side or another. You live under continual emotional siege, fighting off whatever threatens to transform you.

Mars Opposition Pluto

You are very objective and practical when it comes to your feelings and emotions. You seem always to know what things mean and that they are pointing to. You can read feelings the way others read books.

Mars Conjunction Midheaven

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You could pursue a career as a leader or pioneer. You tend to be the one who takes the initiative and are courageous and often fearless to the point of being foolish. Success for you in most things is second nature. Always "walking point," you tend to be a loner, a warrior. Confident, single-minded, you are sometimes rash but are always direct -- straight out.

Jupiter in Aries

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

Sun Sextile Jupiter

A born teacher or group leader, counselor or guide. Others find it easy to take direction from you by example alone. You enjoy immersing yourself in a group, solving problems, raising spirits, and so on. People admire your openness and generosity.

Moon Conjunction Jupiter

Good ability to "get the picture" (the gist of things) and to communicate this to others. In fact, helping others to find their way through life (for example via vocational counseling) is indicated. Religious ideas and concepts are natural.

Mercury Sextile Jupiter

Your career is most important, and your drive and ambitions in that direction are almost unlimited. You have an uncanny intuitive sense of when and how to make the right moves. Success to you is a succession of successes. You move forward.

Mars Conjunction Jupiter

You have real difficulties when it comes to matters of self-discipline. Your career suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Jupiter Square Saturn

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

Jupiter Trine Neptune

Career is very important, and you have superb management abilities. You are expert at manipulating a situation to the benefit of all concerned.

Jupiter Conjunction Midheaven

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You could have difficulty in letting go and feeling life, preferring instead to think about it rather than do it. Afraid of the sense world, you avoid plunging in and fear being caught or tied down. "To be or not to be..." is your question. There is a need to accept responsibility and limitations, as well as home, family, children, and such.

Saturn in Cancer

Your sense of organization and self-discipline may exist at the expense of your feelings. Others could feel cut off by your no-nonsense approach and may not be as supportive as you might wish. This could result in your being somewhat of a loner.

Moon Square Saturn

Your drive and efforts are not always well thought out. They can lack the method and discipline needed to build a firm foundation, a solid footing. You sometimes push against the way things are, the laws of nature... which is fruitless.

Mars Square Saturn

You tend to pursue options and go off in directions without adequate organization and

planning. You need discipline but have trouble submitting to learn it, preferring instead to take what appears to be an easier path, ending up short of your goals.

Jupiter Square Saturn

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal. sometimes too staid.

Saturn Square Midheaven

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You can find new ways to relate and may be innovative in marriage and social conventions. Very tolerant and accepting of differences, you have good insights into all social values. Independent. You like to facilitate, compromise, and otherwise show your breadth of scope -- like a coat of many colors.

Uranus in Libra

Sharp, nimble mind with ready wit. Quick to get insights and to see new solutions. Approaching genius when it comes to communication skills. Natural physical dexterity. Good hands too. The life of the party when it comes to spontaneity.

Mercury Trine Uranus

You may not be able to let yourself appreciate much that is not conventional for fear of going on some kind of a binge. A strong sense of the novel and unusual rears its head every so

often and upsets your whole value system.

Venus Square Uranus

You are most original when concentrating on areas of work and family where you feel secure. You are a private person and find all the pomp and circumstance of social life repressive and boring.

Uranus Square Ascendant

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Idealism is an innate talent, and you are in love with grand gestures and long thoughts. Religion, politics and philosophy are natural. The world traveler. You enjoy fair, just, frank, and broad-minded persons. You are gregarious and sports-minded. You dare to dream big. You like new philosophies, long novels.

Neptune in Sagittarius

Others may not always support your self-image and your personal ideals. At times, your more romantic and idealistic side may even work against your best interests, resulting in disappointments and disillusion with partners, authorities, and such.

Sun Opposition Neptune

A born director and orchestrator of the moods and emotions of a group. A sharp sense of drama and a feeling for spiritual ideas and for art in general. Dreamy. Able to understand the public's mood and what is required to please. Could be deceptive.

Moon Trine Neptune

Driven towards the communal, to what unifies us all. Always seeing what we hold in common, rather than our differences. Idealism of a high order. Religious themes. Romantic. At home in psychic or psychological realms. The common denominator.

Mars Trine Neptune

You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You

would make a great teacher in these areas.

Neptune Sextile Pluto

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Change and inner growth tend to come through relationships, both friends and lovers. Marriage or union (yoga) will be very intense and not at all superficial. You get to the heart of a relationship each and every time.

Pluto in Libra

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

Sun Trine Pluto

Your own insistence on analyzing and probing into personal issues may not endear you to the group. Others experience this kind of emotional intensity as unsettling. It goes against how they feel. Power struggles in relationships can be expected.

Moon Opposition Pluto

You sometimes find your ambitions taking you in directions that have no future or limit you from change and growth. Emotionally, you tend to resist change and anything intensely personal and possibly transformative.

Mars Opposition Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

Career is very important, and you have superb management abilities. You are expert at manipulating a situation to the benefit of all concerned.

Jupiter Conjunction Midheaven 00°27'

You are a personal charmer, as anyone who ever gets into a one-on-one with you can testify. You seem to appreciate everything and everybody, and this shows. Your sense of love and compassion is an open book for all to read.

Venus Conjunction Ascendant 00°44'

You can be a real moving force in the lives of others. A natural group leader or trainer, your vitality and drive are communicated to all those you contact, especially younger people. Your enthusiasm is so strong that it can sometimes be a little too much, making others uncomfortable. You put a lot of effort into those around you, and also into your surroundings and home environment.

Moon Conjunction Mars 02°23'

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

Moon Conjunction Jupiter 04°20'

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

Moon Conjunction Midheaven 04°48'

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at

the right time. Politics or some public career seem inevitable.

Mars Conjunction Jupiter 06°43'

You are very objective and practical when it comes to your feelings and emotions. You seem always to know what things mean and that they are pointing to. You can read feelings the way others read books.

Mars Conjunction Midheaven 07°10'

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunction Mercury 08°54'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You have real difficulties when it comes to matters of self-discipline. Your career suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Jupiter Square Saturn 00°02'

You are most original when concentrating on areas of work and family where you feel secure. You are a private person and find all the pomp and circumstance of social life repressive and boring.

Uranus Square Ascendant 00°06'

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal. sometimes too staid.

Saturn Square Midheaven 00°29'

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned ignorance to the contrary, you suffer regular infusions of change, which you find very disturbing. New things threaten to overpower you.

Venus Square Uranus 00°39'

You find yourself at odds with all that is mystical --- the dreamy side of life. Your

ambitions are practical and down to earth, and you tend to pooh-pooh all that smacks of the imaginative or ideal. You may have a fear that others (partners, what-have-you) are out to deceive you and want to pull the wool over your eyes. Authorities, especially men, who set themselves up as peacemakers or spiritual gurus are a major pet peeve. Your emphasis on the practical and real may also let you down, resulting in further disillusionment.

Sun Opposition Neptune 03°05'

You are opposed to emotional confrontation and resist change in these areas. Getting too personal with you, in particular where feelings are concerned, is a big mistake. You almost always take issue and are seldom polite about it. Your ambition to "rest in peace," undisturbed, suffers constant abuse from all sides, locking you in almost continual opposition with one side or another. You live under continual emotional siege, fighting off whatever threatens to transform you.

Mars Opposition Pluto 04°11'

You have difficulty controlling your emotions, and this often results in flare-ups with others, especially family or those closest to you. This could cost you much-needed support and intimacy. Your tendency to get harsh, both with yourself and with those around you, may mean that you spend a lot of time alone. You have a tendency to spoil your own nest. Your many responsibilities and obligations may keep you away from those who would offer you much-needed support.

Moon Square Saturn 04°18'

You tend to avoid getting personal when it comes to your own emotions, and would rather keep sensitive matters at arm's length. You don't mind getting into the personal business of others, producing some heavy confrontations. Those around you don't care for personal probing on your part, and they will let you know it. Your home and surroundings tend to be very traditional.

Moon Opposition Pluto 06°34'

You waste a lot of energy sailing into the wind and clashing against authority or reality for no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

Mars Square Saturn 06°41'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are very fortunate in being able to grow and progress throughout your life without

major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Sun Sextile Midheaven 04°27'

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

Mercury Sextile Jupiter 04°54'

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

Your early years, until the age of 11-12, may not be very easy. You may be a more inward and insecure youngster than average. The early teens should see the end of this stage and the beginning of a much more outward and self-confident one. You will begin to sense your own strength and discover yourself at this time. What follows will be a time of learning and extending your position until around the age of 18-19, at which time you will really begin to come into your own, both in a social sense and where your career is concerned. The years from 18-26 will be very strong, during which you can do no wrong. You should rise rapidly to a position of success. After that, you will become more inward and turn away from the outer. A time for consolidation.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Sep 24, 20113rd Pass D> (Age 36 3m)

The dates above point to the end of a period of about seven years during which you may have been very inward and self-absorbed -- quiet, subjective years. Information that you have been examining and thinking about will now begin to take shape and prove useful to you. This

next period is one of action and embarking on new projects. You will feel more and more confident and outgoing, a sense of confidence that grows stronger with each passing day. Things that may have been in suspended animation for many years will now precipitate and take on structure and shape. These next years are ones in which you should plan to work hard to bring out and give shape to the ideas you have pored over these last 6-7 years. You are beginning to really move forward now and can expect rewards to take an outward career, and social form within a few years. A growing self-confidence. In summary, from this time forward, expect a more confident, outgoing attitude, for you have brought to a close a time of inward examination and learning. A growing sense of direction and self-worth will find you reaching out and establishing yourself.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

Have Fire

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to

other things.

Have Cardinal

Not too centered, perhaps not always able to hang in there for the long haul. You might not make a good linebacker. You may tend to be all over the place rather than front and center.

Want Fixed

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

Your imagination and sense of idealism are near-perfect and true. You are at home in all things mystical or religious, and have this as a natural talent. You have a low burn rate and have clear vision in these realms.

Neptune

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer personality may look tough and self-centered, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

Geo: Square Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be

judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

Your sense of direction and guidance are the key to understanding you at any in-depth level. You are a natural problem-solver, always managing to come up with the correct approach. There is an innate capacity to negotiate with the law and authorities, plus an ability to find your way (the correct way) when it comes to inner and spiritual matters. Others sense this gift, and accept guidance and council.

Jupiter

At the deepest level, you are a high floater, very much at home in the realm of visions and dreams -- a seer. Your inner ideals are pure and spiritual in the true sense of the word. You always see beyond that which is divisive to the unity that binds it all together. You grasp the theme or thread that connects things. There may well be the ability to entrance, either with words or music, and to overcome any objections with a flood of concord. When it comes to images, you are a smoothie. This tendency to see unity in the world around you sets the tone for your character.

Neptune

The Key to your Personality

The key to understanding your personality and the circumstances in which you find yourself can be found in the environment or support system that surrounds you. You are very much the creature of habit and habitat, and the encircling network of friends, relationships, and what-not are crucial to your success or lack thereof. You are nourished in great measure by the atmosphere and conditions you are able to set up.

Moon

The Personal Hot Spot

Your career, sense of judgment, and problem-solving ability are at the top of the list as the key components to look out for whenever you are stroked or stressed.

Jupiter

Your surroundings, circumstances, and support system are the crucial spot, key link, or what-have-you in the chain of your life. When things get hectic, it is in these areas that you can expect pressure and greatest activity.

Moon

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the right time. Politics or some public career seem inevitable.

Jupiter Inc Mars

You may have a tendency to avoid sensitive subjects and to take refuge in duties and responsibilities rather than face issues that might disturb you or put you through some changes. You are a stern pragmatist in all that is psychological -- whatever wells up from inside us. Your need for psychological security and absolute truth in all matters cuts through most chit-chat and settles on core material. You concentrate on deep, inner changes in you and in others -- depth psychology.

Saturn Inc Pluto

You are probably hard to control and very unpredictable. Your drive for independence is obvious, and it is clear that the common and the traditional are not for you. Anything else but that! You pursue alternate or nonconformist solutions to life with great energy. Your temper is hot and sharp and tends to snap out like a lightning bolt. You are aggressive in the pursuit of gaining insight into all that is new, different, and out of the ordinary. Electronics, computers,

and communications could be a big part of your life.

Uranus Inc Mars

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

A good detective or research person. You can't help but get past all that is superficial. A passion for inquiry, questioning and searching finds you always in pursuit of some piece of information... communicating, writing, speaking.

Pluto in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

You are very independent when it comes to your own security and family. This could mean an unconventional-style home or furnishings, or a different approach to sentiment, nostalgia, and history.

Uranus in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You have great creative imagination, perhaps a strong sense for the dramatic and the ability to express ideas of a mystical or other-worldly flavor. Entertaining children (and adults) with enchanting stories and the like is indicated.

Neptune in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Your sense of honesty and truth is something that others sense in you and support. You might find yourself teaching or guiding groups in matters of religion or philosophy. Travel, especially with others, is indicated.

Moon in Ninth House

You may end up traveling the world. An inner urge to find the very heart of truth in all things may propel you endlessly. You are very motivated when it comes to philosophies, religion, and all things essential and lasting. No superficiality.

Mars in Ninth House

Your devotion and search for truth may carry you across the globe and certainly to the far reaches of philosophy and religious thoughts. Your career may hinge on your need to always get at the seed, essence, or heart of every question.

Jupiter in Ninth House

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Perfect as a group leader, where your innate idealism and love for humanity can blossom. Group or community work -- anything that is altruistic or serves the common good -- is where you can be found. You strive to make your dreams and ideals real.

Sun in Eleventh House

Your mind runs to humanitarian values and thoughts of what could (and should) be. Ideas connected with group work and goals (making your inner vision real) are natural. You are good at putting your ideas to work in the world, making dreams real.

Mercury in Eleventh House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

You can appreciate the difficulties of others and be understanding of the problems they may be having. You value a certain amount of self-sacrifice and a giving attitude. You can discriminate between superficiality and the reality beneath them it.

Venus in Twelfth House

You are very serious when it comes to self-sacrifice and doing all you can to make things easier for other people. You pursue psychology, the human psyche, and things mystical. You are quite painstaking when it comes to giving and helping others.
